

 2008 SAMSUNG SYSTEM AIR CONDITIONERS Ver.4

## imagine refreshing comforts

2008 Samsung DVM System Air Conditioner will provide you refreshing coolness. Feel the comfort you have never experienced with the cool, refreshing air that Samsung's new DVM PLUS III Air Conditioners provides. Experience the maximum comfort in real life. With Samsung, imagination comes to life.

# Big Confidence Global Leading Company >> SAMSUNG

## Tremendous Investment in R & D

Samsung's thrust on Product Innovation and R&D has given the company a competitive edge in the marketplace. With an investment of over USD 4.59 billion, Samsung operates 16 R&D centers worldwide and employs 27,000 researchers of which 2,500 hold a Ph. D. As a result, Samsung has already applied for 1600 patents in the USA. The focus of the R&D center is to customize electronics products to meet the Specific needs of consumers in that region. Samsung R&D Centers are helping the company to continuously innovate and introduce products customized for today's global market.

## What is "Green Management?"

SAMSUNG Electronics' corporate policy of making "Green Management, the top priority of all corporate activities" has led to bold and continuous measures. Such measures include developing green technologies and green products, reducing waste and maintaining accident-free workplaces based on the five pillars of Green Management: Management, Products, Processes, Workplaces and Communities. SAMSUNG is not only making its products more environmentally friendly, but is also building pollution-free workplaces by minimizing the use of harmful substances in processes and developing greener substitutes. With the pursuit of green management, Samsung will continue to create new values as a digital leader in the 21st century.

## SAMSUNG brand equity has reached 16.85 billion USD in 2007

In the Digital era, products are being distinguished by their brand in addition to their functions or quality. In 1999 Samsung Electronics has implemented its global brand communication strategy. Since then, based on the research conducted by Interbrand INC., USA, Samsung Electronics has become one of the fastest growing brands equities from 6.4 billion USD (2001) to over 16.85 billion USD (2007) and is now ranked 21st on Interbrand's Top100 Global Brand List.

Samsung has increased its value by emphasizing technology as a life innovator. Samsung will remain close to the customer through its technologies contributing to a higher quality of life.

Rank	Brand	Country of origin	Sector	2007 Brand Value	Change in Brand Value

imagine  
beyond your limit

2008 Samsung DVM System Air Conditioners have all the desirable features you can possibly get. This year's outdoor units with new advanced technologies are more powerful and efficient. Stylish indoor units have also become more compact for easier installation. Complete control system helps easier control and adds convenience. Everything is just ahead of your expectation for absolute satisfaction.

# Line-up - Outdoor Units

Samsung DVM Air Conditioners runs with new refrigerant R410A, which will not pollute our global environment.

# New Technology

imagine  
never ending development

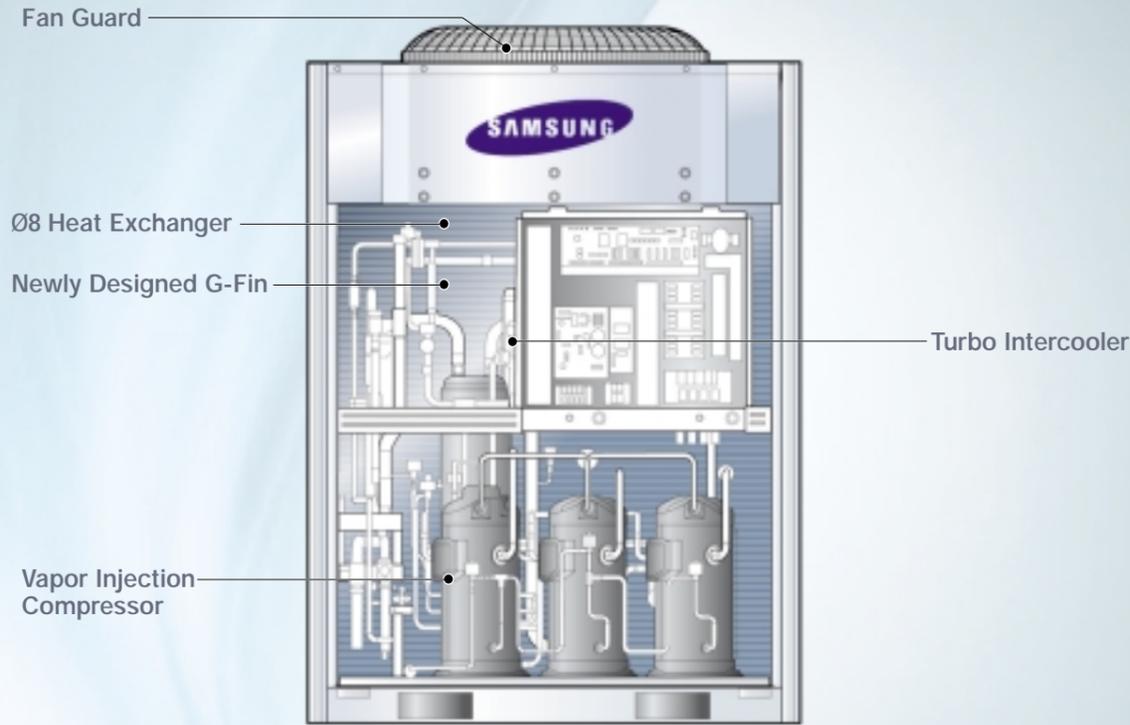

See this year's new technologies with your own eyes. Never ending development of Samsung's technologies will satisfy all your expectations. Each of this year's new technologies were considered to provide you the most efficient and convenient air conditioners. Experience all the newest technologies. Feel the difference.

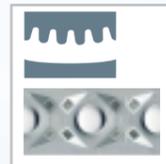

# Overview

New DVM Plus III System Air Conditioner has improved its performance with remarkable technologies. We now introduce these notable technologies and how they improved the performance of your air conditioner. Witness the wonderful technologies that makes better world.

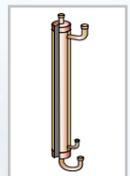

### DVI Compressor

DVI (Digital Vapor Injection) compressor injects optimized mid-range pressure refrigerant to improve cooling and heating performance and efficiency.

### New G-Fin

High efficiency new G-fin improved heat transfer performance and reinforce corrosion resistance.

### Turbo Intercooler

Turbo intercooler(Shell and Tube Type) improves cooling and heating COP and secure reliability on long piping installation.

### Fan Guard

Optimized fan guard design enhanced air flow volume which achieved the high heat transfer performance without increased noise.

### Ø8 Heat Exchanger

Highly efficient Ø8 Grooved tube has been applied to reduce pressure loss while increasing heat transfer performance to improve COP.

## New Technology

### Digital Hybrid System

DHS (Digital Hybrid System) is a brand new concept system composed of DVI compressor, vapor injection technology and turbo intercooler. These 3 factors together provide highly efficient performance.

### DVI Compressor

Efficient and reliable DVI Compressor coupled with Vapor Injection technology has been applied to improve cooling and heating performance and energy efficiency.

### Vapor Injection Technology

Improved cooling and heating performance and COP by a new technology of two stage compression. This technology achieved the high heating performance and COP under the lowest temperature, which leads the industry.

- Increase refrigerant flow rates with a new Vapor Injection technology.
- Improved Sub-cooling necessary for long piping runs while increasing cooling and heating performance and COP.

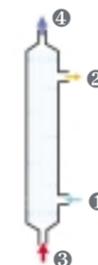

Vapor Injection Tube

Vapor Injection Port

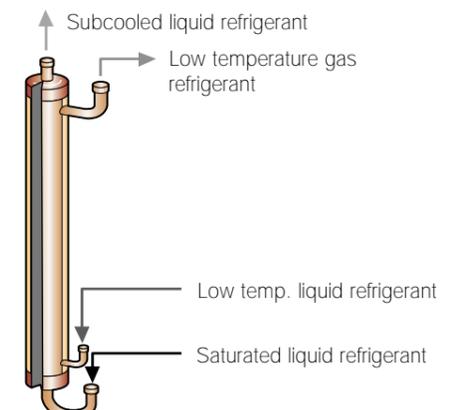

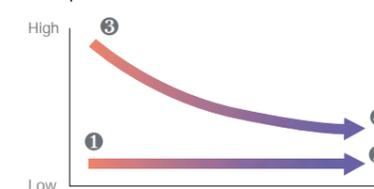

### Turbo Intercooler

Turbo intercooler (Shell & Tube Type) improved cooling and heating COP, to secure reliability on long piping installation.

- Improve COP with the application of Turbo intercooler.
- Adequate sub-cooling to ensure reliable operation on installations with long piping (200 m).

Temperature

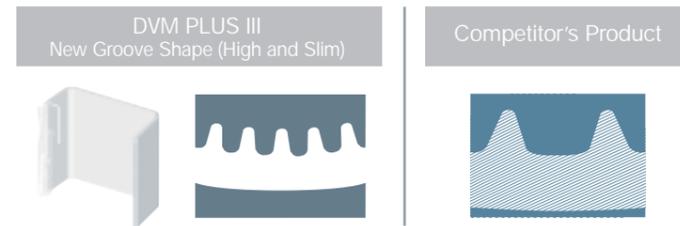

# New Technology

## Ø8 Heat Exchanger and New G-fin

### High Efficiency Ø8 Heat Exchanger

Efficient Ø8 Grooved tube reduced pressure loss while increasing heat exchange rates to improve COP.

- Groove shape is designed to be high and slim to increase heat transfer performance inside the tube.

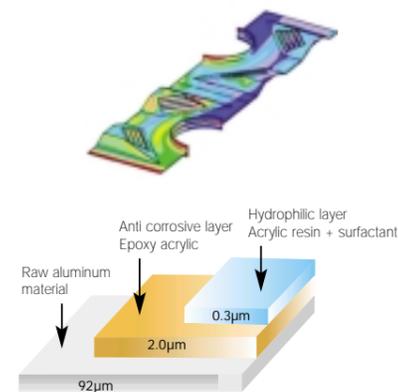

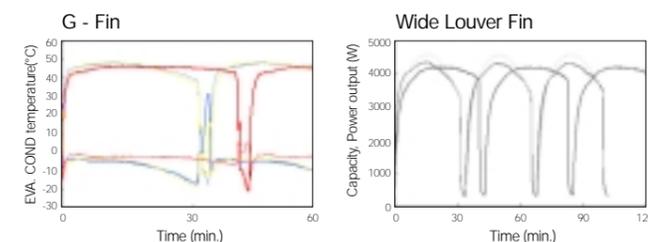

Item	Improved Heat Exchanger	
Diameter	Ø7 → Ø8	
Heat transfer surface area	19% ↑	
Pressure loss in heat exchanger	Evaporation	14.1% ↓
	Condensation	10.3% ↓
Internal heat transfer performance	30.8% ↑	
Pressure resistance	same	

### New G - Fin

Highly efficiency new G-Fin increased heat transfer performance, reinforced corrosion resistance, and increased operating duration in frost condition.

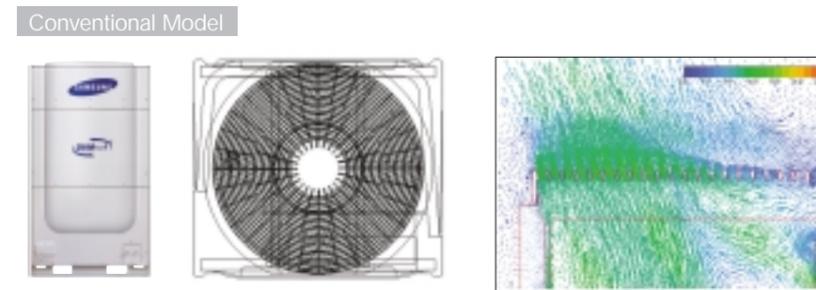

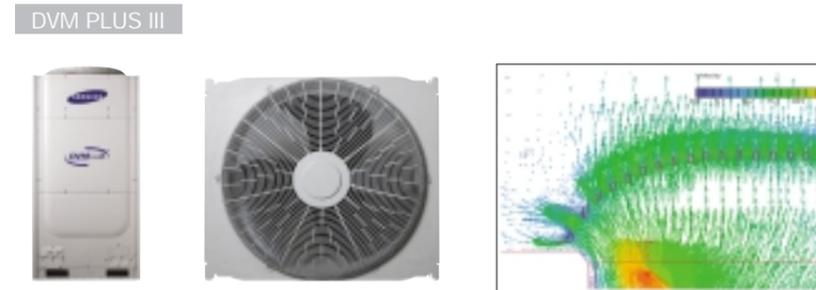

- Heat transfer performance improved by 13% compared to the conventional fin, even with the equivalent pressure loss.
- Epoxy Acrylic Coating reinforced corrosion resistance.
- Heating operation time is 1.4 times longer in frost condition due to new G-Fin.

### Newly Designed Fan Guard

Fan Guard has been optimized to improve air volume and reduce noise and vibration.

- BLDC Motor, which is 2.7% more efficient than the competitors, has been applied.
- Applied high static pressure propeller fan and the optimum Bell Mouth form for high external static pressure. (External static pressure: 8mmAq)

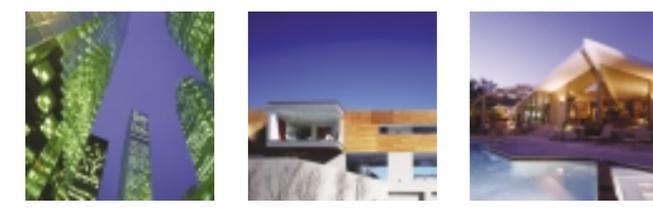

# Outdoor Units

imagine  
the absolute power

New DVM Plus III system air conditioners have become more powerful, efficient and compact. DVM Plus III is equipped with more advanced technologies to provide effective cooling and heating, save energy, and help easier installation. DVM Plus III has capacity up to 64HP with more compact size. Be ready for the new generation of the outdoor unit.

>> 18\_DVM PLUS III / HR >> 42\_Mini DVM >> 46\_Free Joint Multi

# DVM PLUS III / HR

Multi Modular Technology

DVM Plus III/HR offers the largest capacity in the industry with 64HP and boasts the highest COP levels. More compact size, with larger capacity, shows the efficiency of the product. DVM Plus III HR has all the features which DVM Plus III has and offers even more features. DVM Plus III HR will give you simultaneous cooling and heating where different air conditioning is needed under same outdoor unit.

RVXVHT160GE RVXVRT160GE							1	2				1	1	1	2	3		1	2	2	3	3	3	4

### High COP

High efficiency DVM PLUS III has improved average cooling and heating COP compared to conventional products and achieved the world's Top Class energy efficiency

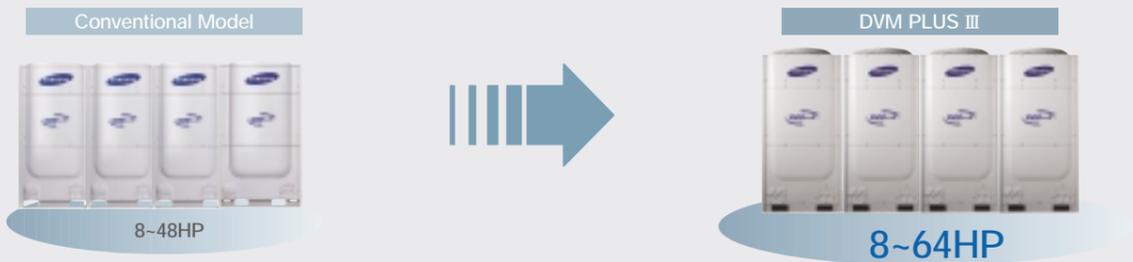

- DHS(Digital Hybrid System) technology increased refrigerant flow rate and evaporation enthalpy difference.
- Wide Ø8 Grooved pipe and G-Fin increased heat exchange efficiency.
- The best BLDC Motor in the industry and Optimum Fan Guard design increased efficiency.

### The World's Largest Capacity

Samsung has achieved world's largest capacity of 64HP by combining maximum 4 outdoor units with 5 different capacities. (8, 10, 12, 14 and 16HP)  
 Many combinations of Heat Pump or Heat Recovery types supporting up to 64 indoor units provide consumers variety of choices for any installation condition.

- Compact combinations (8~64 HP) : Combination with the model requiring the smallest installation space.
- High-Efficiency combinations (16~56 HP) : Combination with high-efficiency model.

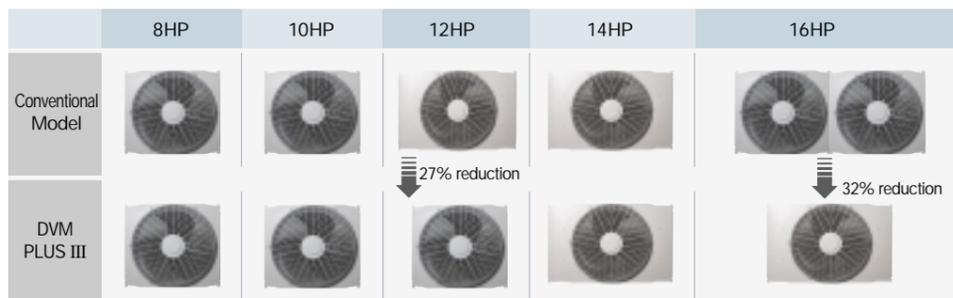

### The Smallest Foot Print Area

The world's smallest foot print provides smallest installatoin space which saves incredible amount of time.

#### Space Saving

Model	12HP	16HP
Conventional Model	0.92m <sup>2</sup>	1.35m <sup>2</sup>
DVM PLUS III	0.67m <sup>2</sup>	0.92m <sup>2</sup>
Comparison to Conventional Model	73%	68%

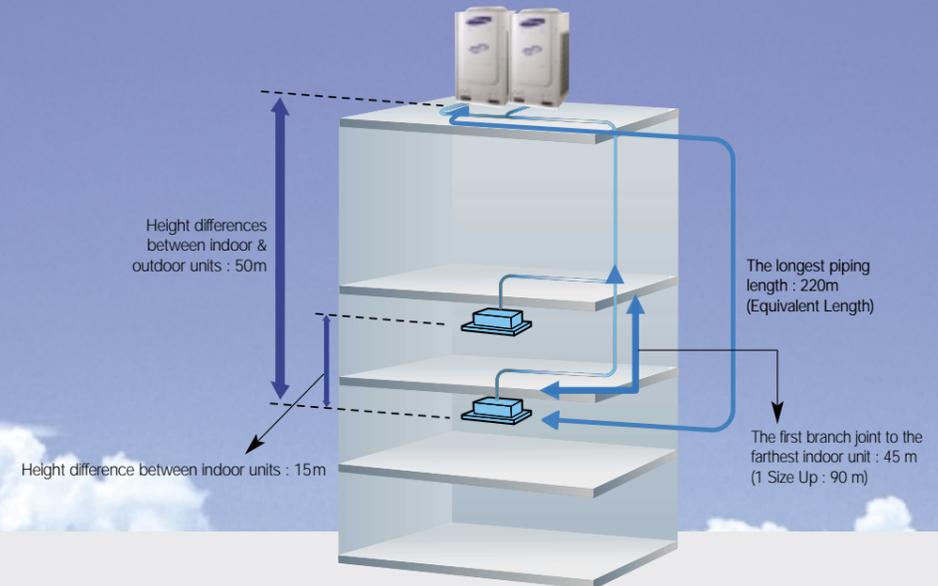

### Digital Unit Module

Digital Unit Module combination enables the system to alternate compressor operation to prolong each compressor's life cycle and improves COP with part loads

- Control the compressor capacity precisely.
- Ensure long life cycle by alternating operation of the DVI compressors.
- Improve COP using multiple heat exchangers of outdoor units at part loads.

### The World's Longest Piping Length

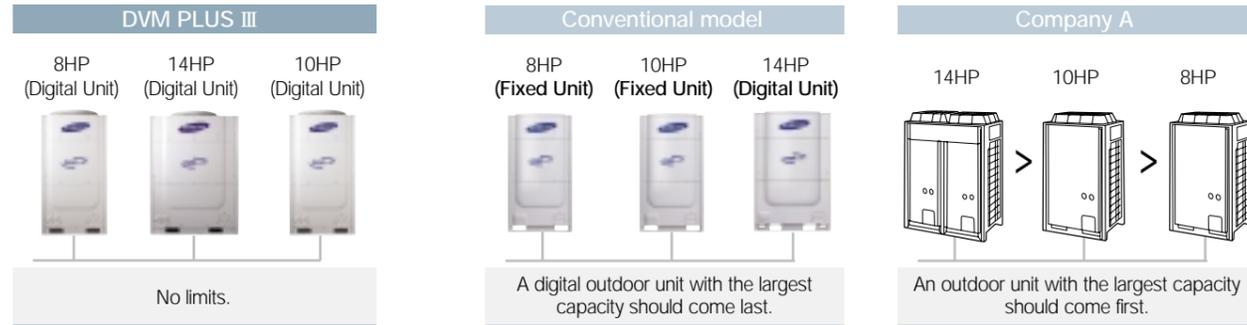

DVM PLUS III has an actual piping length up to 200m, with the maximum piping length of 45m from the first branch joint to farthest indoor unit, thereby providing more convenience and flexibility for installation in commercial buildings.

#### Summary

- The longest piping length : 220m (Equivalent Length)
- Total piping length: 1000 m
- From the first branch joint to the farthest indoor unit : 90m (with one piping Size Up)

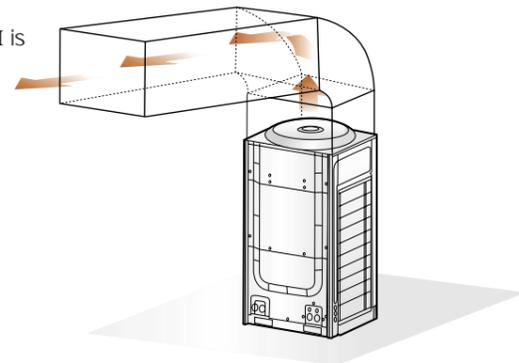

### Free Installation

DVM Plus III/HR provides the degree of freedom from priority of capacity when installing outdoor units in module.

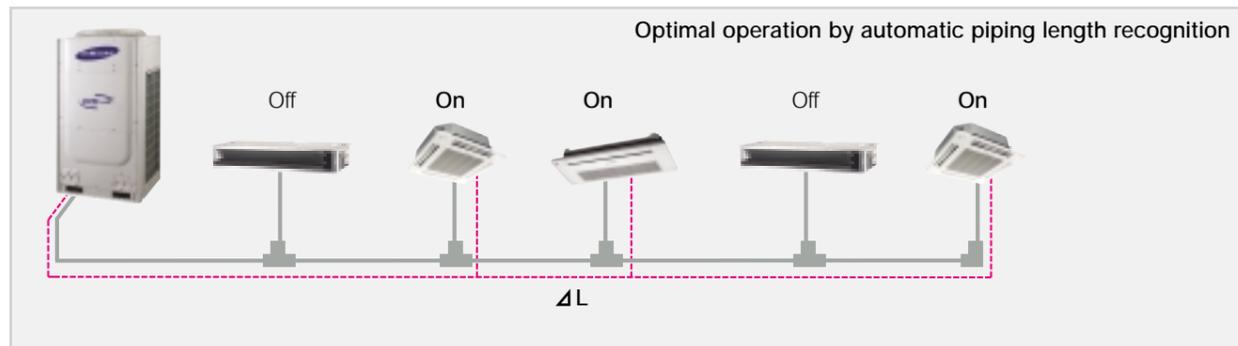

### External Static Pressure

To respond to a range of various installation environments, DVM PLUS III is designed to be used even in external static pressure of 8 mm Aq.

### Automatic Piping Length Recognition

Auto piping length recognition system saves time with no additional settings and performs the optimum operation in accordance with piping length.

## Lead-Free and RoHs

### Refrigerant Leakage Prevention

To prevent refrigerant leakage, we provide how to diagnose any refrigerant leakage in operation. Also, changing service valves from flange type to brazed type further prevents refrigerant leakage.

### RoHs Compliance

Although RoHS restriction only applies to small and large household electronics, IT equipment, lightings, power train, toys, leisure and sports equipment, and vending machines. Samsung expands the RoHS restriction into its entire range of products based on its own environmental policies.

### Lead-Free

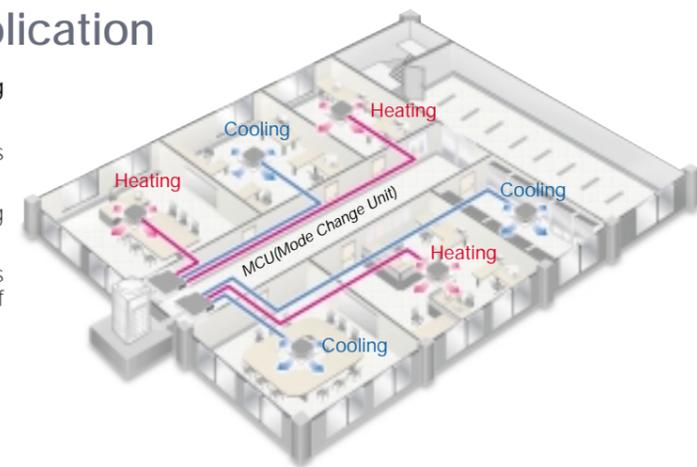

DVM Plus III is an eco-friendly product that prevents pollution problems caused by the use of lead, by applying lead-free indoor and outdoor PCBs.

## DVM PLUS III HR Versatile Application

As DVM PLUS III HR allows a simultaneous cooling and heating operation with one system, there are variety range of application.

- Great for places where simultaneous cooling and heating operation is required. (Hotels, nursing homes, conference rooms, etc.)
- For seasonal air-conditioning which may need a simultaneous cooling and heating operation.
- In case of medium and large office, DVM PLUS III HR satisfies cooling and heating operation simultaneously for the requirements of interior and perimeter zone.

	Heating	°C	-20~24	-20~24	-20~24	

Notes  
 \*1) Mode - HP: Heat Pump, HR: Heat Recovery  
 \*2) Nominal cooling capacities are based on - Indoor temperature: 27°C DB, 19°C WB, Outdoor temperature: 35°C DB, 24°C WB, Equivalent refrigerant piping: 7.5m, Level differences: 0m  
 \*3) Nominal heating capacities are based on - Indoor temperature: 20°C DB, 15°C WB, Outdoor temperature: 7°C DB, 6°C WB, Equivalent refrigerant piping: 7.5m, Level differences: 0m  
 \*4) Sound pressure was acquired in a dead room. Thus actual noise level may be different depending on the installation conditions.  
 - Specifications are subject to change without prior notice for product improvement.

# Mini DVM

Slim and Flexible

Mini DVM is a highly compact and reliable unit for luxurious residential buildings or light commercial applications with a Digital Scroll Compressor which ensures high energy efficiency.

Outdoor Units

- High energy-efficient system
- Compact outdoor unit
- Wide Compatibility

- Ø1, 220-240V, 50Hz (4/5HP)
- Ø3, 380-415V, 50Hz (5/6HP)

## High Energy Efficiency

Digital Scroll compressor offers very high cooling and heating COP.

## Compact Design

Mini DVM offers easy installation with its slim and compact design saving installation space.

### Dimension

Capacity	4Hp	5Hp	6Hp
Volume (m <sup>3</sup> )	0.39	0.39	0.39
Foot print (m <sup>2</sup> )	0.35	0.35	0.35
Height (mm)	1,128	1,128	1,128
Weight (kg)	124	125	125

## Easy Maintenance

Mini DVM makes it possible to control compressor, PCB, EEV on front panel allowing simple and effortless maintenance. It is possible to react promptly to errors because they are displayed on LED of the outdoor units by error codes.

## High Reliability

Mini DVM is highly reliable with adopted Digital Scroll Compressor which can be controlled easily. Because Digital Scroll Compressor needs just one control PCB, it achieves simple structure and high reliability.

## Various Indoor Units

Mini DVM can be combined up to 9 stylish indoor units blending with any interior design.

## Wide Compatibility

Mini DVM can be controlled by a control solution which is the same with that of DVM PLUS III and FJM

# Free Joint Multi | High Energy Efficiency

Free Joint Multi supports various combinations of indoor and outdoor units, providing variety of choices and flexible installation. Therefore, Free Joint Multi is the best solution for residential buildings seeking flexible, efficient and reliable air conditioning system.

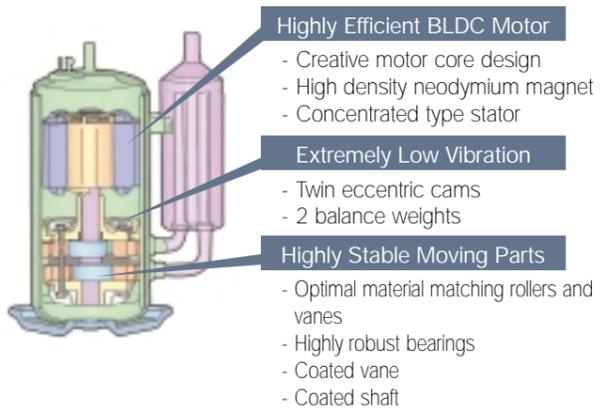

## High Performance

### Wide Operation Range of Outdoor Temperature

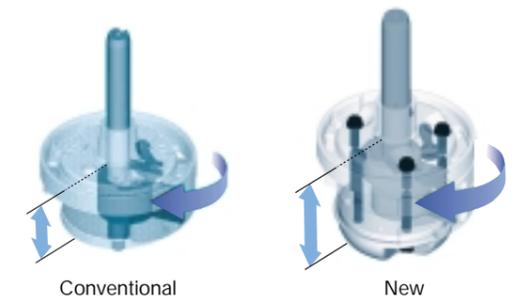

### BLDC(Twin Rotary) Compressor

BLDC Compressor is applied on all FJM outdoor models.

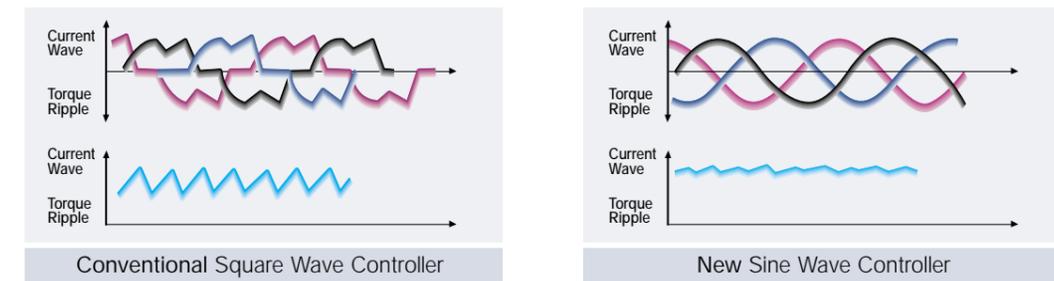

### TBR Sine-Wave Compressor

New FJM models have applied the twin BLDC compressor with highly stable moving parts which reduced torque variation by 70% compared to the conventional single BLDC compressor.

### Sine Wave Controller

All the FJM models have adopted this newly developed Sine Wave Controller. No ripple in the current wave makes soft acoustic quality and reduces noise.

### Felt Structure

New felt has been selected to reduce the noise coming out of the compressor. Double layered felt structure absorbs noise by two times and felt is also covering top of the compressor to reduce the noise even more.

# Indoor Units

imagine  
the perfect fit

Different types of air conditioners are required depending on different types of buildings and residential space. Searching for the right air conditioner for your commercial and residential space is over. You'll be able to find the one you need from Samsung's variety of indoor units in style. Perfect fit, just the way you need it.

# Wall-mounted type Air conditioners

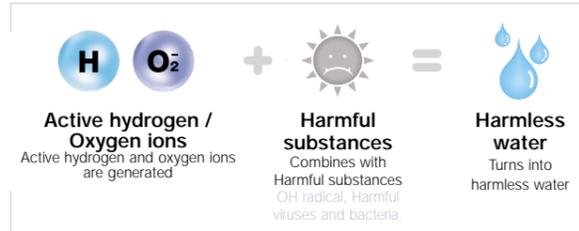

Samsung's brand new wall-mounted type air conditioners have more than just a feature of comfortable cooling. New wall-mounted air conditioners will be part of your interior design and protect your health with built-in health care system. Breathe cooler and healthier air every second of your life.

## mpi MPI Zone (Optional)

Do you know that harmful substances and viruses breed in the space you live in?

### How Micro Plasma Ion System technology Works

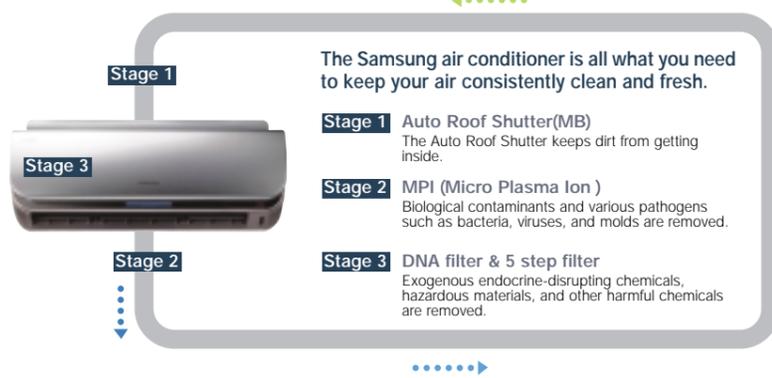

### Micro Plasma Ion improves your Indoor Air Quality and eliminates all your worries.

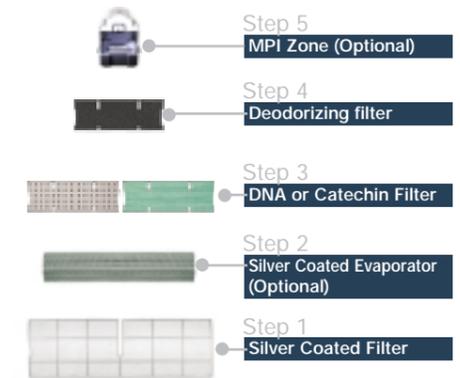

- Creation of an Intensely Purified Zone
- Protection against disease
- Safe from allergy-causing agents
- Controls active oxygen which can cause disease, cancer, and accelerated aging

## Health Care System (Optional)

### Health Care System

### 5-Step Air Purifying System

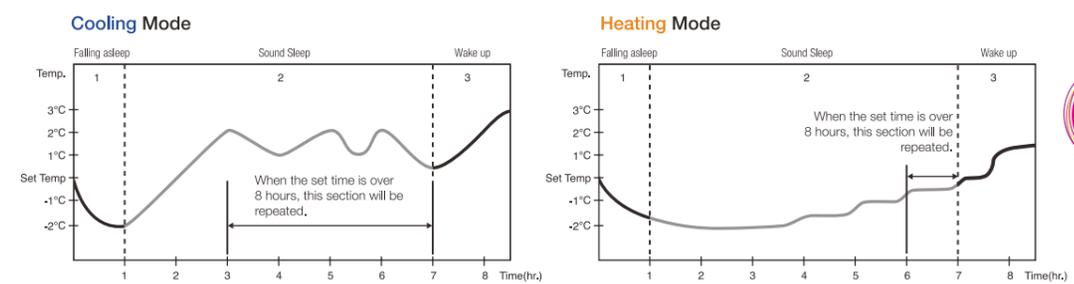

## good'sleep Good'sleep II (MB/Forte)

### Best Temperature for deep sleep

According to the stage of sleep, temperatures are adjusted so you fall into deep sleep faster and get up more refreshed in the morning for a great start to your day.

1. **Falling asleep stage:** Eases you into sleep by dropping the temperature.
2. **Sound sleep stage:** Relaxes your body and raises your temperature slightly.
3. **Wake up stage:** Allows you to wake up from comfortable intermittent air and it makes you feel refresh.

... Unique and Innovative...

# MB

### Auto Roof Shutter (2.8/3.6kW)

This unique air conditioner automatically seals off to prevent dirt infiltration when not in operation.

### DNA Filter

It is a new technology that screens selectively for only toxic agents. This enables a smarter and effective air management compared to other filters.

### MPI (Micro Plasma Ion)

The world's first technology that generates active hydrogen atoms together with oxygen ions to improve your Indoor Air Quality. It protects you from harmful particles and viruses existing in the air.

### Good'sleep II

Innovative technology developed to control the air temperature during your sleep and maintain optimum skin temperature to enjoy a comfortable sleep and also a refreshed wake up.

### Deodorizing filter

Incorporated with activated carbon, the Deodorizing Filter efficiently adsorbs cigarette smoke, pet odors and other unpleasant odors.

### Silver Coated Evaporator

The fins of the evaporator are triple coated with environmentally friendly materials (2 years of chrome-free silica, 1 layer of Silver coating) to ensure efficient removal of condensation and to guarantee the production of clean and fresh air.

# Vivace (Shadow Mirror)

## mpi MPI (Micro Plasma Ion)

The world's first technology that generates active hydrogen atoms together with oxygen ions to improve your Indoor Air Quality. It protects you from harmful particles and viruses existing in the air.

## good'sleep Good'sleep II

Innovative technology developed to control the air temperature during your sleep and maintain optimum skin temperature to enjoy a comfortable sleep and also a refreshed wake up.

## Catechin filter

Catechin, extracted from green tea, is contained in the filter and deactivates captured bacteria and unpleasant odors.

## Deodorizing filter

Incorporated with activated carbon, the Deodorizing Filter efficiently adsorbs cigarette smoke, pet odors and other unpleasant odors.

## Silver Coated Evaporator

The fins of the evaporator are triple coated with environmentally friendly materials (2 years of chrome-free silica, 1 layer of Silver coating) to ensure efficient removal of condensation and to guarantee the production of clean and fresh air.

# Cassette type Air conditioners

This year's new cassette type air conditioner still boasts its slim and compact size, but is now equipped with more advanced features. The cassette type air conditioner not only has stronger airflow to cool and heat every inch of space efficiently, but is also designed to be quiet and to purify. Expect more with Samsung.

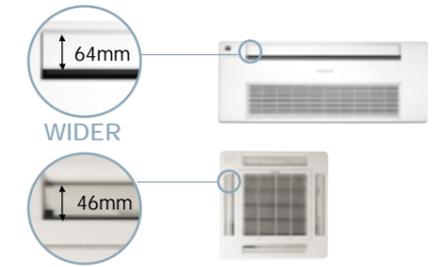

## Cassette type Icon

-  **WIDE BLADE**
-  **CEILING SOILING PREVENTION**
-  **HIGH LIFT-UP DRAIN PUMP**
-  **FRESH AIR INTAKE**
-  **SUB DUCT**
-  **QUICK CONNECTION OF DRAIN PIPE**

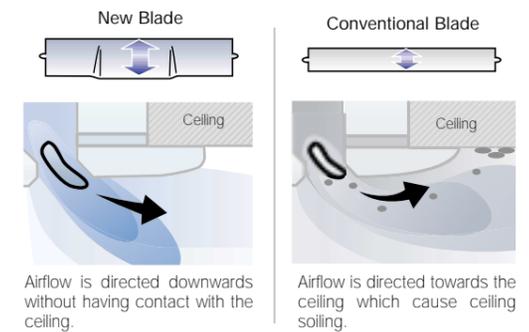

## Wide Blade

The new cassette type air conditioner is equipped with uniquely designed blades that are wider to provide even cooling and heating power throughout the room.

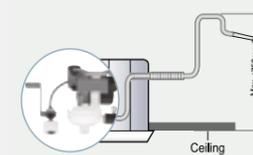

## Ceiling Soiling Prevention

Newly designed panel will control the air direction to avoid having contact with the ceiling. This new design will prevent the ceiling soiling and keep your interior cleaner than ever even, after long period of operation.

## High Lift-up Drain Pump

The lift-up drain pump lifts condensed water up to 750mm, compared to the competitor's 700mm, allowing for flexible and convenient installation.

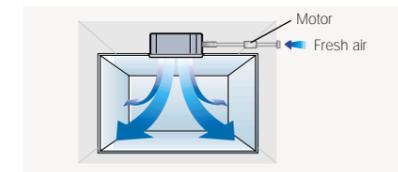

### Lift-up Range

Company	600 (mm)	650 (mm)	700 (mm)	750 (mm)
SAMSUNG				750mm
Company A			700mm	

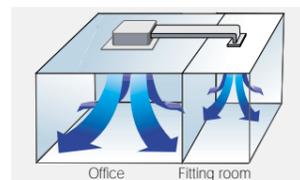

## Fresh Air Intake

With optional installation of an air intake motor, fresh air can enter through the cassette unit so you have fresher air in the room.

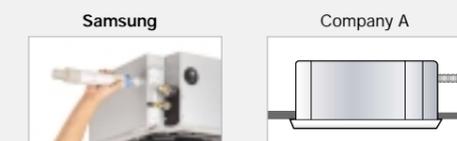

## Sub Duct

The Sub Duct lets you use the same air conditioner unit to cool another smaller space nearby. (The cassette unit is fitted with a knock-out component to accommodate this.)

## Quick Connection of Drain Pipe

Samsung's unique drain pipe prevents leaks and is easier to install with no need to use tape or adhesives.

... Stylish and Slim ...

# Slim 1Way Cassette

Panel

## Slim and Compact Design

### Slim 1Way Cassette

Want a cassette type air conditioner, but have limited space? Samsung's new Slim 1Way cassette type air conditioner is the answer.

#### Only 135mm thick

Samsung introduces the world's slimmest indoor air conditioner unit. Only 135mm thick, the slim 1Way Cassette air conditioner can be installed practically anywhere.

#### NOTE

Ensure that there is sufficient installation space. Allow at least 170mm for the installation.

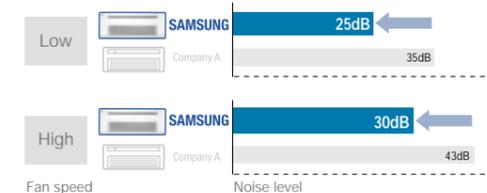

#### Lighter indoor unit

The first to apply ABS cabinets into its indoor units, Samsung has achieved the lightest units on the market. Its slim lightweight design makes installation and maintenance a breeze.

## Quiet Operation

Samsung's new blade design drastically reduces noise levels, so you can relax in peace and quiet.

## Check Valve Inside Drain Pump

Faulty drainage installation or power failures can cause condensed water to flow back into the unit, causing leakage and odors. Samsung's air conditioners are equipped with a check valve built directly into the drain pump to prevent water from flowing backward.

... Slim and Compact ...  
**2Way Cassette**

**HIGH LIFT-UP DRAIN PUMP**      **QUICK CONNECTION OF DRAIN PIPE**

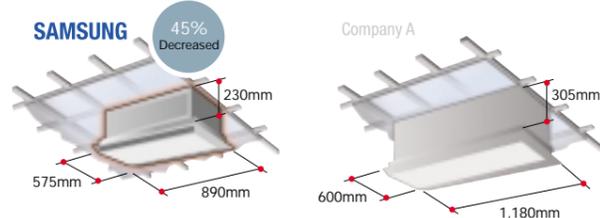

**Standard Formula for Easy Installation**

The dimensions of the 2Way cassette air conditioner allows for easy installation into standard ceiling grids (600Wx600H), so everything just falls into place.

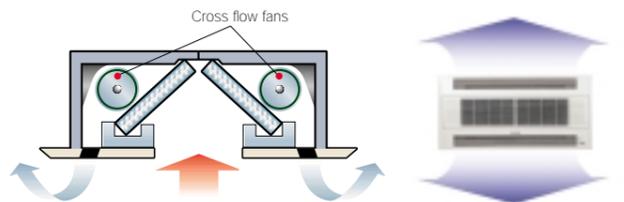

**Small Size Big Performance**

The 2Way cassette air conditioner is now 45% smaller than competitor's models, so it's even easier to incorporate into building design.

**Twin Cross Flow Fan**

The 2Way cassette type unit is perfect fit for long and narrow rectangular type of space. Twin Cross Flow Fan inside of the 2Way cassette will spread cool or warm air even further and wider with less noise.

# 4Way Cassette

**NEW PRODUCT**

- WIDE BLADE**
- CEILING SOILING PREVENTION**
- HIGH LIFT-UP DRAIN PUMP**
- FRESH AIR INTAKE**
- SUB DUCT**
- QUICK CONNECTION OF DRAIN PIPE**

## Stylish Panel Design

The stylish panel is well harmonized with any interior design.

## Optional Accessories

Individual Controllers

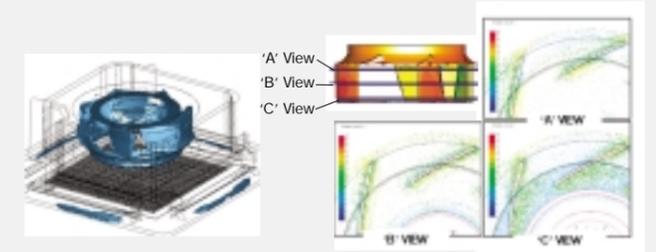

Panel

## New Turbo Fan

### Quiet Operation

Imagine a room of cool calmness. The aerodynamically designed 'Turbo Fan' minimizes noise from the turbulence of blade movement. Therefore noise is less than conventional models.

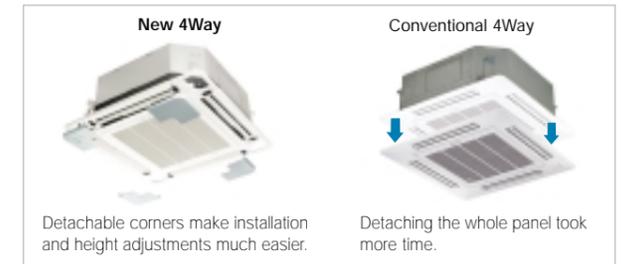

### Uniform Distribution

The new 'Turbo Fan' with wide blades provides extreme cooling and heating power from 4 separate outlets so the entire room gets cool or warm faster. Now, every nook and cranny is comfortable.

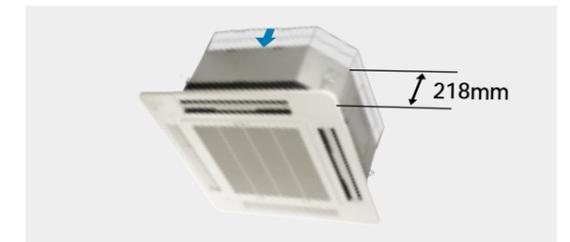

## Easy Leveling

Each corner portion of the panel is detachable, which gives easier access to adjust the height, therefore leveling and installation is much easier and quicker than before.

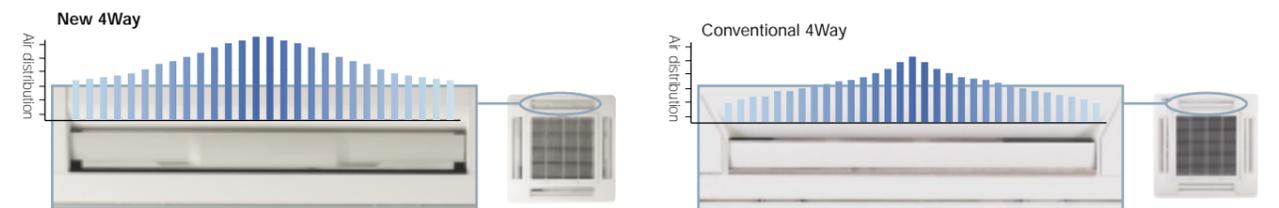

## Compact Size

The 4Way cassette type unit has gotten even slimmer. Now only 218mm thick (5.2/7.0/9.0kW), 24% slimmer compare to competitor's 288mm (9.0kW). It's still the industry leader in compactness and is even easier to install in tight spaces.

## Efficient Cooling

3-dimensional blade, which has the world wide patent, is able to spread cool or warm air further and evenly to all corners of the space.

# Duct type Air conditioners

Samsung's new duct type air conditioners offer flexible installation benefits with its slim, compact size and the option to set up the air inlet either on the bottom or rear of the unit. Its Smart Pressure Control System also provides consistent cool and warm air regardless of the surrounding environment, and the filtering options give you cleaner, healthier air. Enjoy more with Samsung.

## Duct type Icon

-  ANTI-BACTERIA FILTER
-  EASY FILTER CLEANING
-  HIGH LIFT-UP DRAIN PUMP
-  SMART PRESSURE CONTROL

## Clean Filter System

The anti-bacteria filter and the filter cleaning indicator provide you with cleaner, healthier air. You deserve to breathe fresh air everyday.

### Anti-bacteria Filter

The anti-bacteria filter not only traps dust particles, but suppresses proliferation of molds and bacteria.

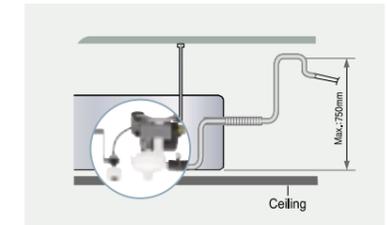

### Easy Filter Cleaning

After 1,000 hours of operation the filter clean indicator will inform you that the filter should be cleaned. The filter can be easily removed from the bottom, left, or right of the unit. (1,000 hours is the default set time, which can be adjusted to 2,000 hours on the internal PCB.)

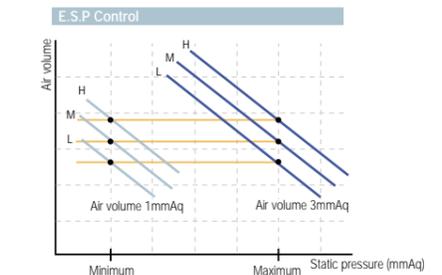

### High Lift-up Drain Pump (optional)

The lift-up drain pump lifts condensed water up to 750mm, compared to the competitor's 700mm, allowing for flexible and convenient installation.

### Smart Pressure Control

The Smart Pressure Control System adjusts fan speed according to E.S.P.(External Static Pressure), so the air conditioner always gives you consistent cooling and heating power regardless of the surrounding environment.

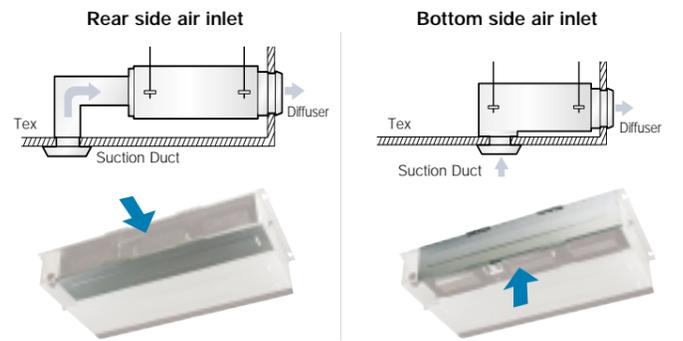

... Slim and Flexible ...  
**Slim Duct**

- ANTI-BACTERIA FILTER
- EASY FILTER CLEANING
- HIGH LIFT-UP DRAIN PUMP
- SMART PRESSURE CONTROL

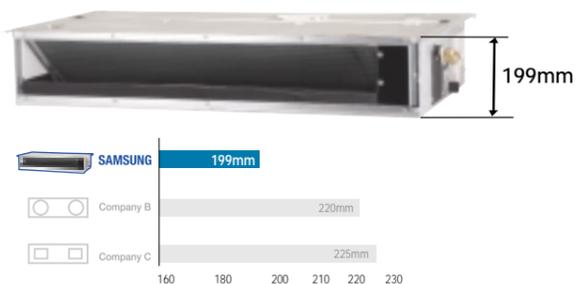

**Flexible Installation**

The air inlet can be set up on either the bottom or rear of the unit, so there is more flexibility in installation.

**Slim Design**

Only 199mm thick, this slim design makes installation, maintenance, and repair easy.

**Easy to Maintain**

Parts are easily accessible by simply opening the bottom panel, which reduces time and maintenance costs.

Notes

- \*1) Mode: HP: Heat Pump, HR: Heat Recovery
- \*2) Nominal cooling capacities are based on: Indoor temperature: 27°C DB, 19°C WB, Outdoor temperature: 35°C DB, 24°C WB, Equivalent refrigerant piping: 7.5m, Level differences: 0m
- \*3) Nominal heating capacities are based on: Indoor temperature: 20°C DB, 15°C WB, Outdoor temperature: 7°C DB, 6°C WB, Equivalent refrigerant piping: 7.5m, Level differences: 0m
- \*4) Sound pressure was acquired in a dead room. Thus actual noise level may be different depending on the installation conditions.
- \*5) Specifications are subject to change without prior notice for product improvement.

# Floor & Convertible type Air conditioners

Samsung introduces a new elegance in air conditioners. This year's new console and ceiling type air conditioners have the style to complement any decor. The flexibility of drain pipe placement also gives you more options in where you want to place the air conditioner. Staying cool has never been more stylish.

## Floor & Convertible type Icon

-  **INTERIOR DESIGN**
-  **ANTI-BACTERIA FILTER**
-  **LIGHT WEIGHT UNIT**
-  **SILENT MODE**
-  **FLEXIBLE PIPE INSTALLATION**
-  **WIRELESS REMOTE CONTROL**

## Interior Design

Now with more flexibility in placement, the air conditioner can add a stylish element to your room.

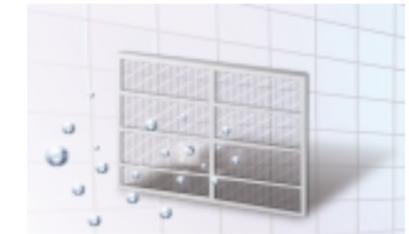

## Silent Mode

Indoor units operate quietly with the least possible noise.

## Anti-bacteria Filter

The anti-bacteria filter not only traps dust particles, but suppresses proliferation of molds and bacteria.

## Light Weight Unit

This extremely lightweight design makes maintenance and installation easy.

## Flexible Pipe Installation

The drain pipe can be installed in 6 different places, so you have more options in where to place your air conditioner.

... Slim and Elegant ...  
**Console**

**NEW**  
PRODUCT

-  **INTERIOR DESIGN**
-  **ANTI-BACTERIA FILTER**
-  **LIGHT WEIGHT UNIT**
-  **SILENT MODE**

-  **WIRELESS REMOTE CONTROL**

**Optional Accessories**

Individual Controllers

MWR-TH01

MWR-WS00

MWR-SH00

ARH-1379

**Elegant Design**

**Slim & Smart Design**

This extremely slim design with Clean Panel adds aesthetic value to any interior.

**Slim Design**

It can't get any slimmer. This newly introduced console type air conditioner is only 199mm thick, the slimmest on the market. Its slim design easily integrates the unit into your decor.

**Clean Panel**

Stay clean with the smartly designed Clean Panel. This unique panel keeps dust from being accumulated so the unit and the room stays cleaner.

**Black Display**

Functional art, the touch screen display is elegant while it maximizes the convenience of control.

**2Way air outlets**

There are two separate air outlets for cooling and heating. Having warmer air coming out from the bottom part of the air outlet will spread the warm air evenly throughout the room. Stay cooler and warmer in every corner of your room.

**Silent Operation (23dB)**

The silent, yet powerful and efficient cooling and heating system keeps things more comfortable. Silent mode is available in 4 different operating modes: High / Medium / Low / Silence.

# ERV System

## Energy Recovery Ventilator

Samsung's ERV System has applied the cross flow ventilating method which assure you efficient ventilation and energy saving. Furthermore, ERV System has adopted total heat exchange (sensible heat + latent heat) as a heat recovery process that helps maintaining indoor temperature and humidity and minimizing indoor heat loss caused by ventilation

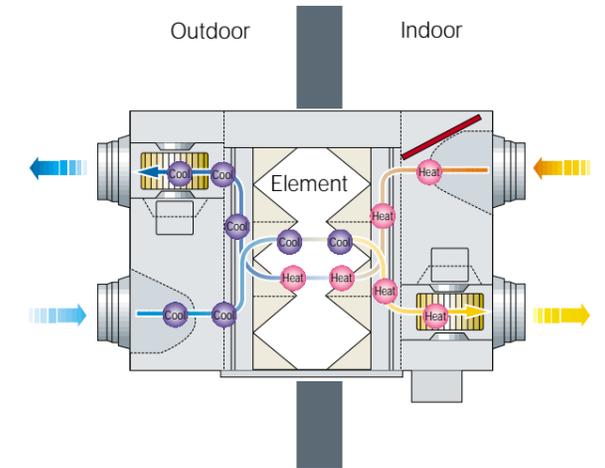

### How it Works

#### Winter

It reduces the costs of heating ventilated air by transferring heat from the warm inside air being exhausted to the fresh (but cold) supply air.

#### Summer

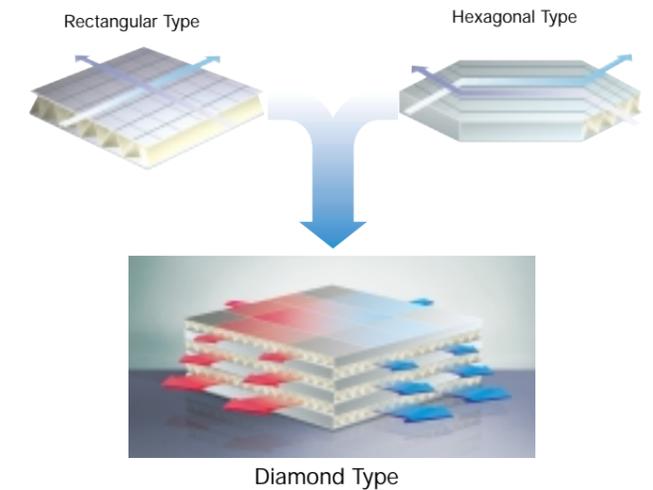

The inside air cools the warmer supply air to reduce ventilation cooling costs.

### Key Technology

#### New Diamond Type

- Optimized Airflow Design
- High Efficiency Element
- Compact size

#### Automatic Refresh System (CO<sub>2</sub> Sensor) : Optional

- ERV is automatically operated to give fresh air into room by sensing CO<sub>2</sub> Level.

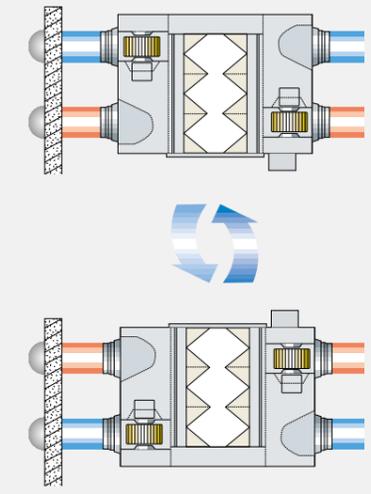

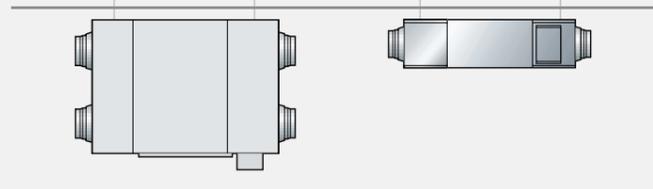

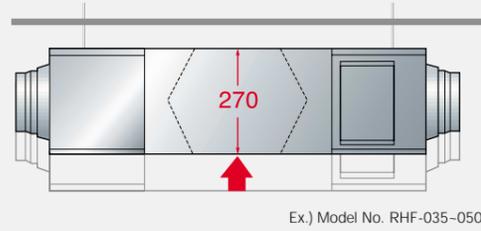

#### High Efficiency Motor (BLDC)

- Constant air volume by BLDC motor.

#### Intelligent Operating System (-15°C) Without Heater

### Compact Size & Flexible Installation

- Compact and Slim in Size by High Efficiency Diamond Element.

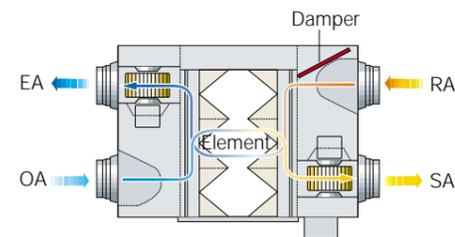

### Energy Saving Operation (Auto Mode)

It automatically changes operation mode depending on temperature difference between indoor and outdoor to save energy.

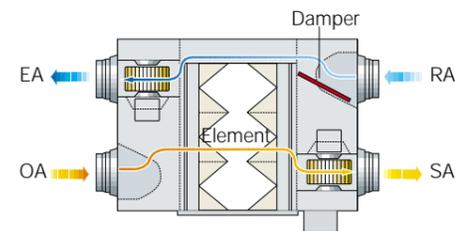

#### Extreme Climates (Winter & Summer)

When temperature and humidity level difference between indoor and outdoor is big, it operates as ERV.

#### Mild Climates (Spring & Fall)

When temperature and humidity level difference between indoor and outdoor is small, it operates as conventional ventilation fan.

# Control Systems

imagine  
the complete control

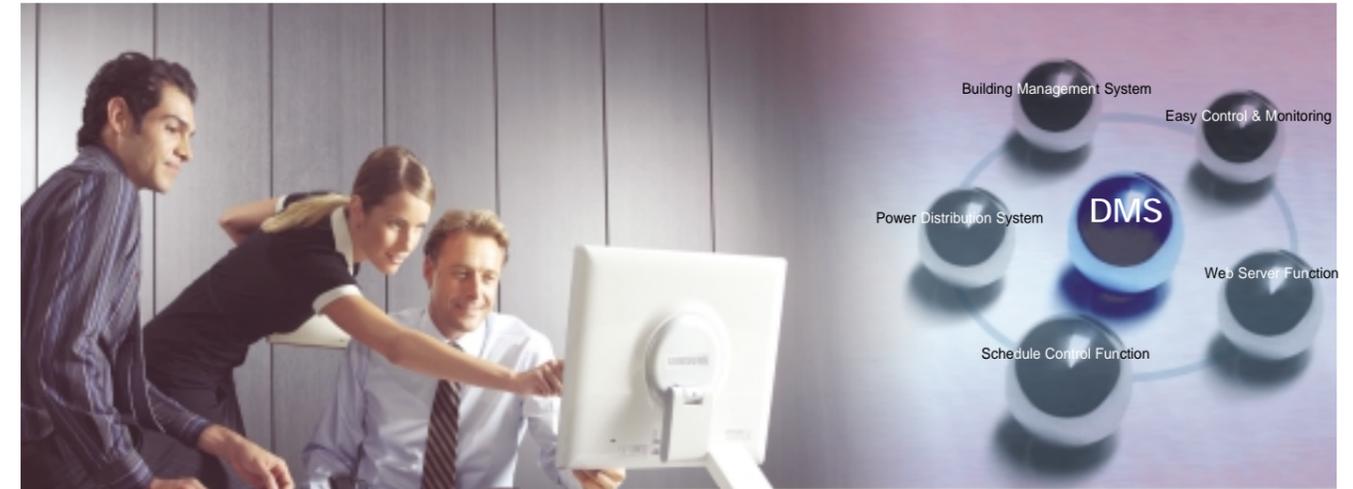

Effective and complete control systems are here. Samsung's control systems are easy to control, simple and user-friendly. These effective and convenient control systems will not only control but also monitors, manages and maintain all the information of your air conditioner. Complete control, in your hands.

>> 108\_ Integrated Management System >> 116\_ Centralized Control System >> 118\_ Individual Control System  
>> 120\_ Building Management System >> 123\_ Accessories

# Integrated Management System

Samsung's Integrated Management System provides the easiest and most convenient way to manage a large number of air conditioning units at once. This Integrated Management System will help you control, monitor, manage and maintain every little detail of your air conditioning needs.

## **DMS** Data Management Server

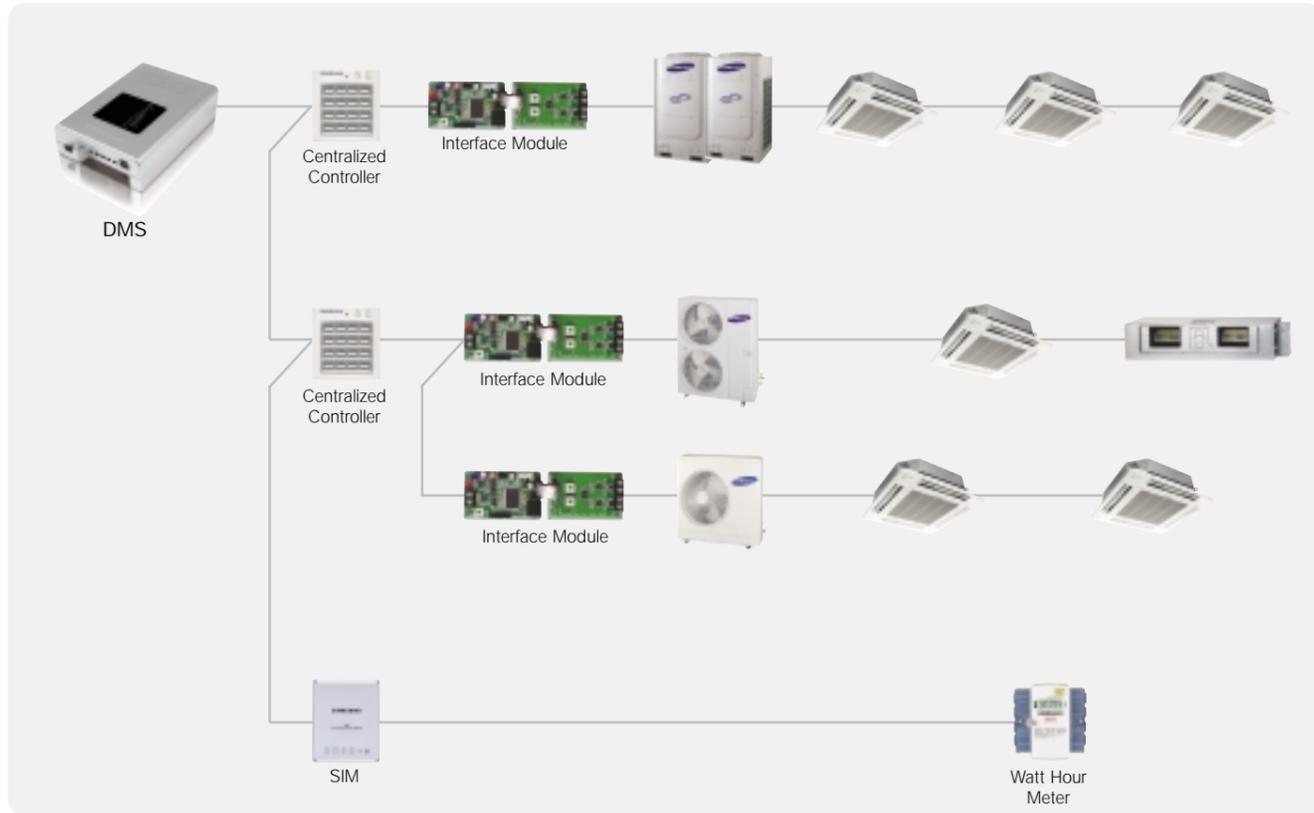

Samsung's Data Management Server (DMS) lets you monitor and control your on-site air conditioning needs remotely. It's the easiest and most convenient way to manage a large number of air conditioning units at once.

### MIM-D00

- Built-in web server for PC-independent management and remote access control
- Multiple upper-layer control access (S-NET 3, S-NET Mini, Web-client)
- Individual/Group control of up to 256 indoor units and heat exchange units
- Error history management
- Weekly/Daily schedule control
- Power distribution function
- 2 digital inputs, 2 digital outputs
- Current time management even during power failure (for 24 hours)
- Data storage in non-volatile memory
- Emergency stop function with simple contact interface

## DMS System

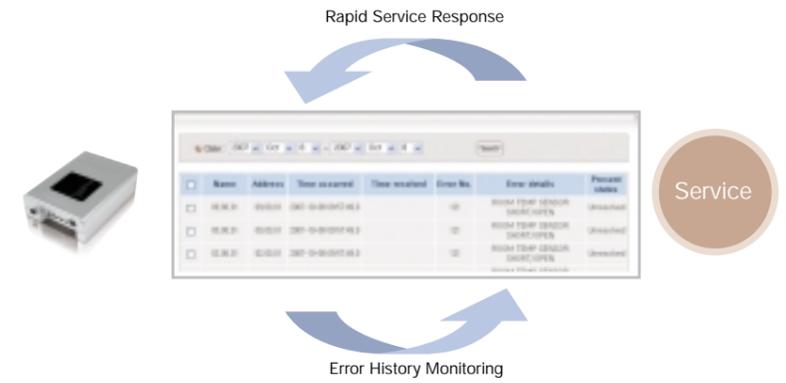

### Schedule Control Function

- Up to 256 schedule settings.
- Weekly, Daily or 1-Day schedule control.
- Exception date setting.

### History Management

- Easy service and management with error history.
- Occurrence date, error details, current state.

## Main Features

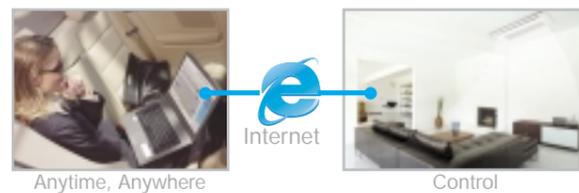

### Easy Control & Monitoring

- Individual/Group control and monitoring up to 256 indoor units.
- Operation mode, temperature setting, airflow direction and fan speed.
- Wireless/wired remote control restriction.
- Easy multiple/full indoor unit selection.
- Full room temperature display.
- Error history query based on date.

### Web Server Function

- Built-in web server.
- Multiple upper-layer control access with prioritized management.
- Remote access control with the static IP address.

### Power Distribution System

- Power distribution to up to 256 indoor units.
- Data query for watt-hour, use time and use ratio.
- File save in Microsoft Excel format.
- 93 days worth of power distribution data storage.

### External Contact Interface

- Full indoor unit control with simple contact input. (Emergency/Lock)
- State output (Operation/Error) for synchronous control.

# SmartNET Smart Net Control System

S-NET is a complex management program that controls and monitors a complete air conditioner network system. The S-NET series provides flexible and complete control for a variety of applications.

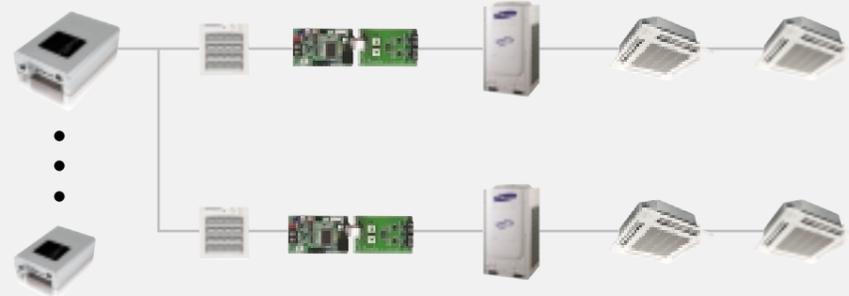

## S-NET 3

- Fully integrated PC management software.
- Up to 16 DMSs connection through the Ethernet.
- Centralized management up to 4,096 indoor/heat exchange units.
- Schedule/Zone control.
- Error/Operation history management.
- Power distribution management and analysis.
- Automatic update through the Internet.

S-NET 3

Supports 16 DMSs

Max. 16 units

## Main Features

### Control and Monitoring

- Control & monitoring of up to 4,096 indoor units
- Heat exchange unit management
- Wireless/wired remote control restriction
- Temperature limit setting
- Multiple/full indoor unit selection
- Icon-based indoor unit display mode

### Schedule Control

- Graphical schedule settings
- Weekly, Daily schedule control
- Exception date setting

### Zone Management

- Management structure customization regardless of installation structure
- Control zone creation/edition/deletion
- Tree structure zone management control

### Power Distribution Management

- Data query for power distribution and operation time
- Power distribution report generation and print
- Time section setting for different electricity rates
- Group setting for power distribution summation

### History Management

- Error/Event history management
- Indoor unit operation history management
- Report generation and print

### Cycle monitoring

- Monitoring outdoor / indoor unit cycle data (Supported for specific outdoor unit models)

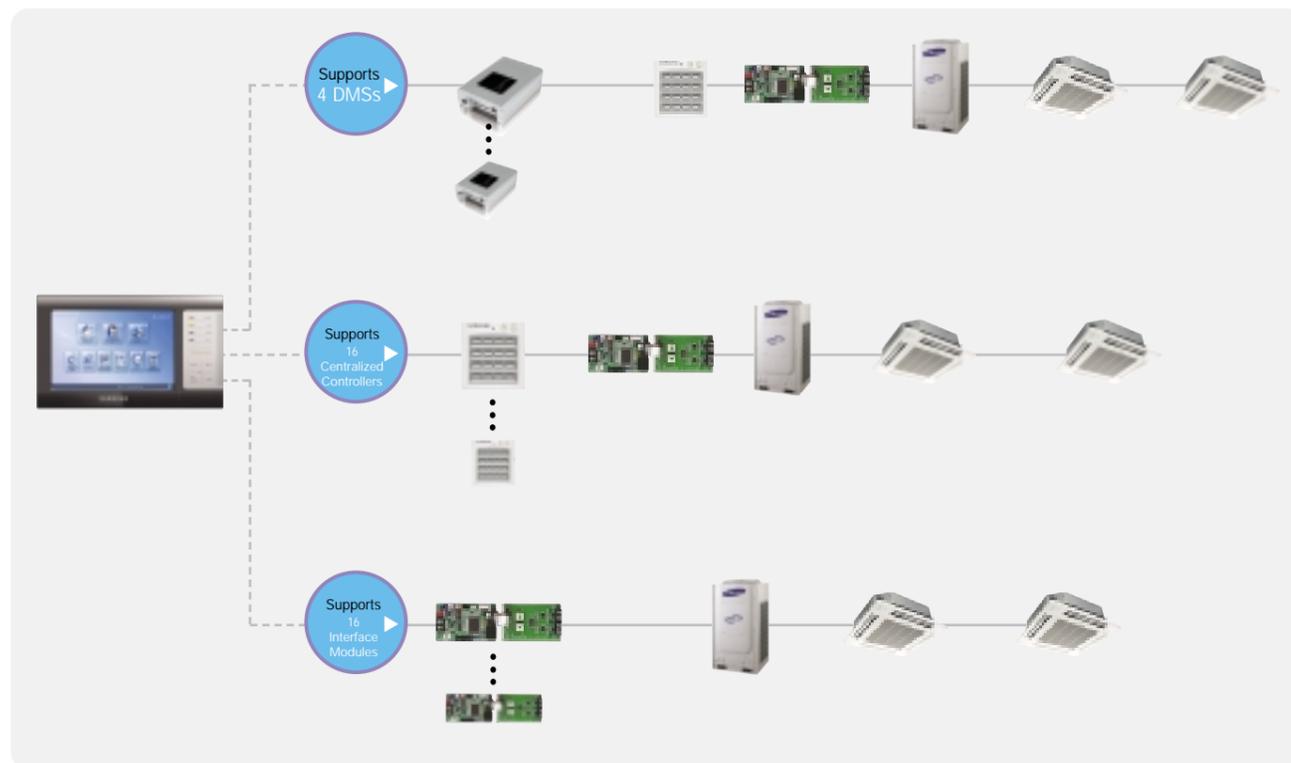

# S-NET mini

- Dynamic compatibility options (DMS, centralized controller, interface module)
- Control and monitoring of up to 256 indoor units
- Detailed cycling information monitoring
- Schedule function (Weekly, Daily)
- USB keyboard supported
- Error display
- 7-inch wide LCD restriction
- Temperature limit setting
- Touch screen
- Zone control
- Child-lock setting

## Dynamic Compatibility Option

## Main Features

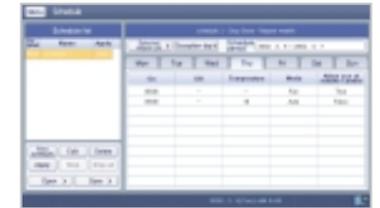

### Control and monitoring

- Control & Monitor up to 256 indoor units
- Operation control and monitoring
- Detailed operation cycling information monitoring
- Wireless/wired remote control restriction setting

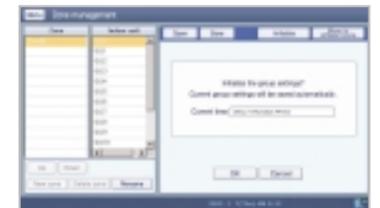

### Schedule Control

- Maximum 256 Weekly, Daily schedule control
- Schedule repetition, exception date setting
- Schedule edit (add, edit, delete)
- Detailed operation schedule setting
- Remote control restriction option setting

### Zone Management

- Management structure customization regardless of installation structure
- Control zone creation/edition/deletion

### Temperature Limit Setting

- Upper/Lower temperature limit setting

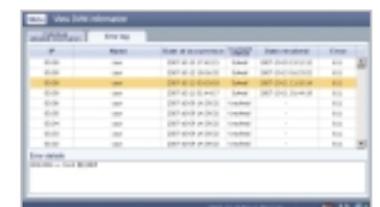

### Cycle Monitoring

- Outdoor/Indoor unit cycling information monitoring (supported for specific outdoor unit models)

### Error Management

- Error history management
- Error management information query
- Detailed error information query

# Centralized Control System

Samsung's advanced technology has come up with the centralized control that is convenient and efficient. Samsung's centralized control system can control and monitor 4,096 individual indoor units and 256 groups of indoor units simultaneously.

## Function Icon

-  **ON/OFF, OPERATION MODE, FAN SPEED, AIRFLOW, TEMPERATURE SETTING**
-  **INDIVIDUAL AND GROUP CONTROL (MAXIMUM 16 INDOOR UNITS)**
-  **ERROR DISPLAY**
-  **FILTER REPLACEMENT ALARM RESET**

## Centralized Controller

MCM-A202A

- Maximum 16 group controls (Maximum 256 Indoor units)
- Unified/Individual indoor unit control (On/Off)
- Wireless/wired remote control restriction
- Cooling/Heating mode control
- Indoor unit error display

## Function Controller

MCM-A100

- Control and monitoring of up to 16 indoor unit groups
- To use Function Controller, it requires to be connected to MCM-A202A

## Operation Mode Selection Switch

MCM-C200

- Operation mode selection (Cooling, Heating or Auto)
- Mixed operation mode protection

## Interface Module

MIM-B13A

MIM-B04A

- Communicator between indoor/outdoor units and the centralized controller

## S-NET II Plus

- Indoor unit control of up to 256 groups
- Extensive individual control of up to 4096 indoor units
- Weekly and Daily schedule function
- Zone setting and control
- Dynamic exchange to Permitted and Prohibited wireless/wired remote control
- Full/Group/Individual indoor unit display

256 group 4096 indoor units controls

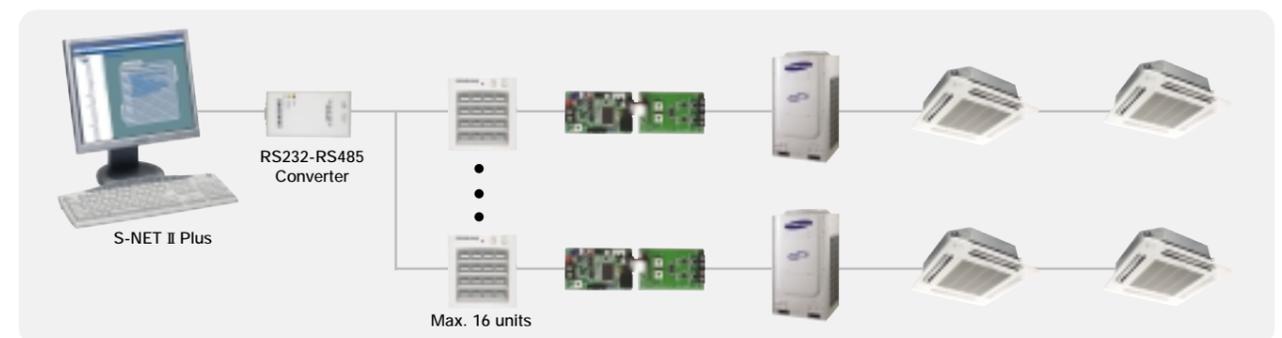

Individual control

Schedule control

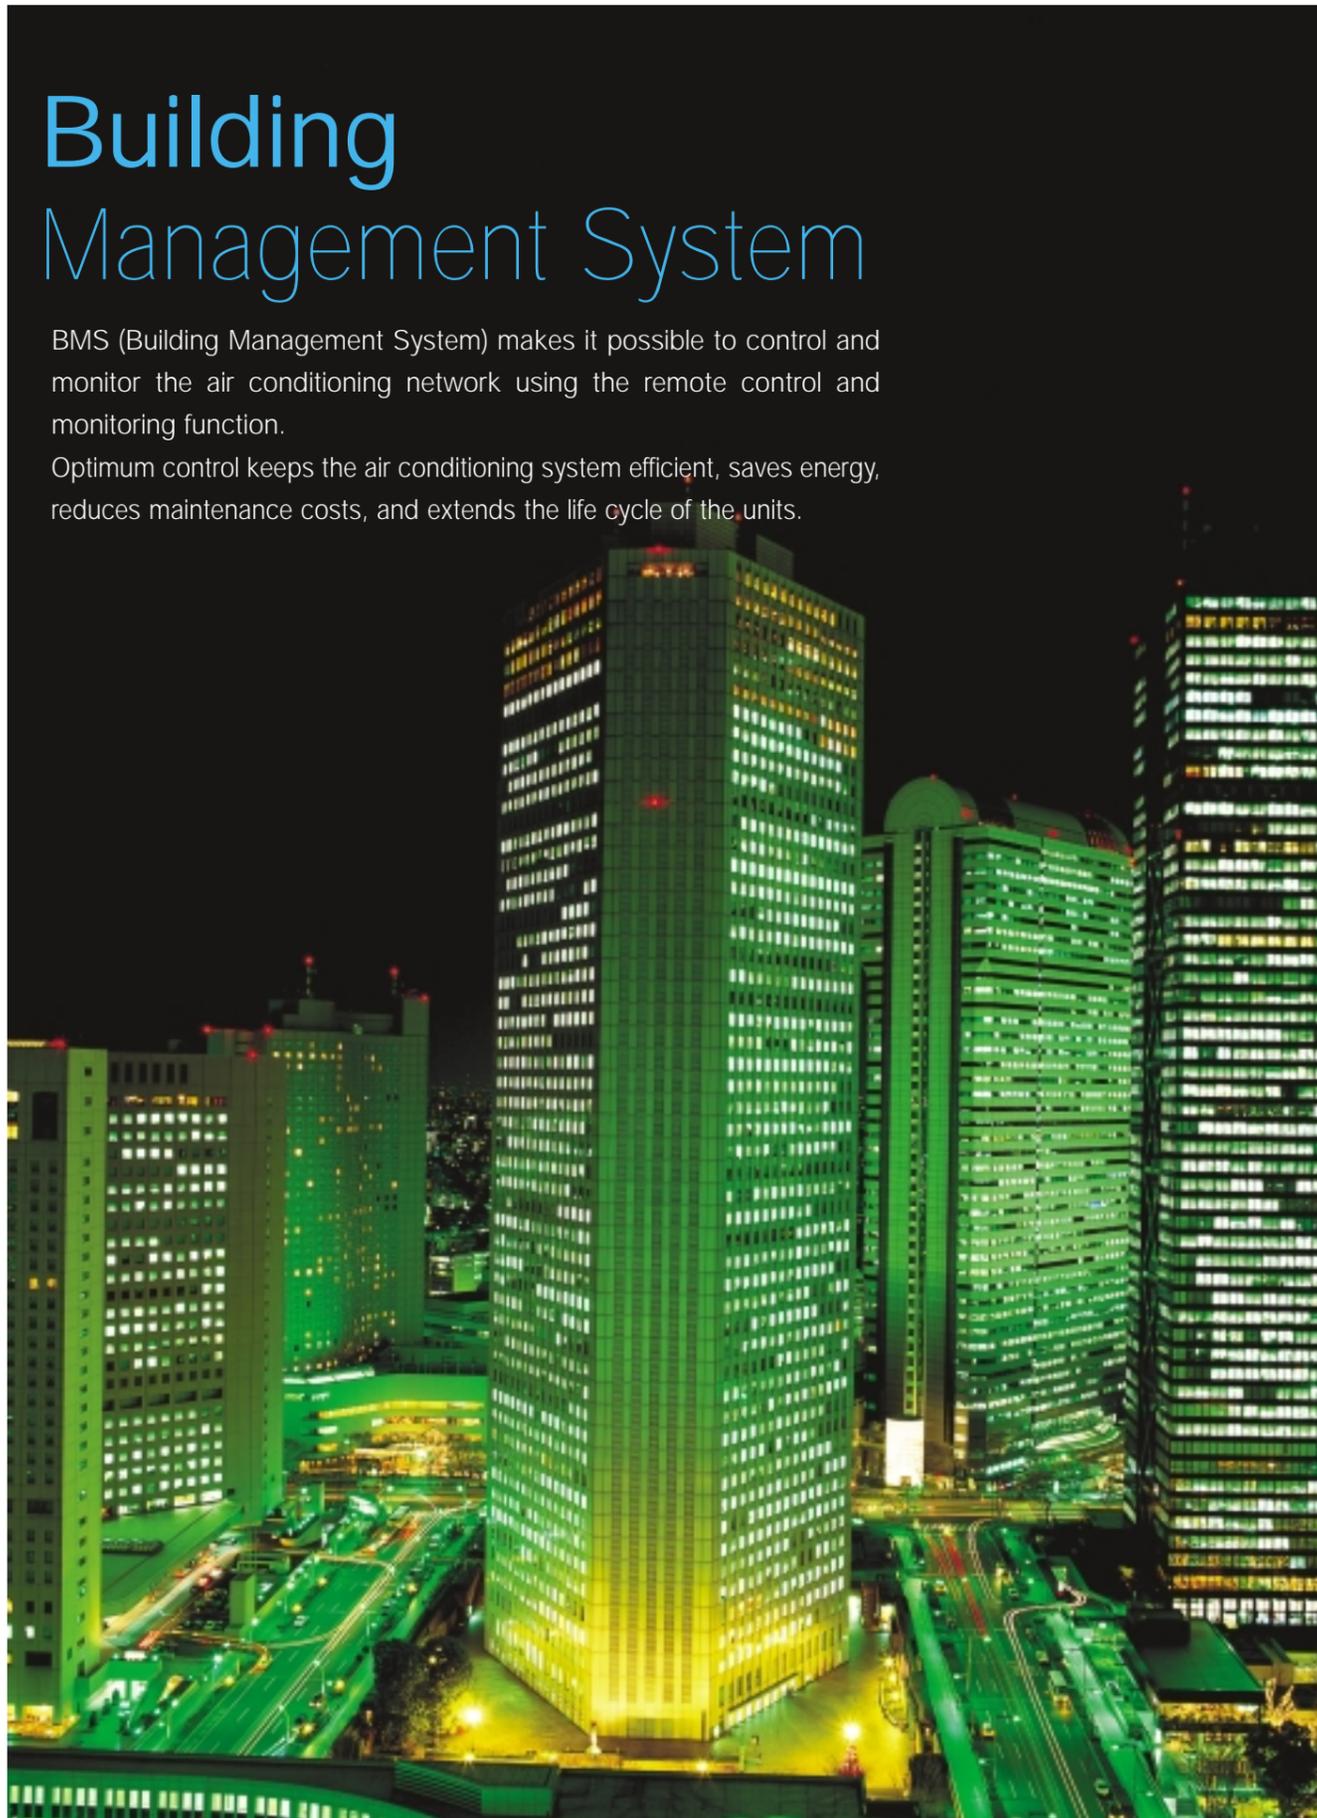

Zone control

# Building Management System

BMS (Building Management System) makes it possible to control and monitor the air conditioning network using the remote control and monitoring function.

Optimum control keeps the air conditioning system efficient, saves energy, reduces maintenance costs, and extends the life cycle of the units.

## Lonworks

### MIM-B07

- Interface for Lon-Connection to Lonworks management system
- Quick and easy installation
- Up to 12 indoor units can be controlled
- Communication : 485 to Lonworks
- Upper physical layer : FTT-10A

#### BMS Control Function

- On/Off control
- Temperature setting
- Operation mode
- Fan speed

#### Monitoring Function

- On/Off
- Operation mode
- Room temperature
- Error information

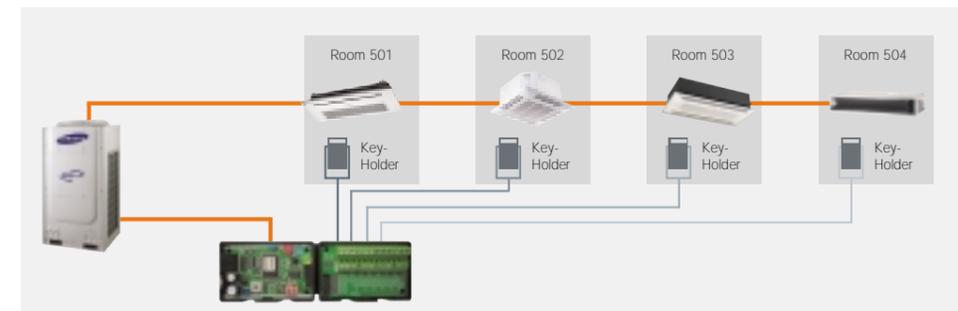

## Guest Room Management System

The Guest Room Management System is a smart way to save energy and money. When the Key Tag is in place, the air conditioner is activated. When the Key Tag is removed, the air conditioner turns off. Now you can avoid cooling an unoccupied room and save energy.

### MIM-B02

- Indoor unit control by external contact signals
- Individual/Group control of up to 16 indoor units
- Combinational use with sensor/timer/emergency inputs

## External Contact Interface Module

### MIM-B14

- Direct indoor unit control by external contact signal
- Window-synchronized indoor unit control
- Emergency control with simple contact input
- Indoor unit operation/error state output through relay contacts

# Individual Control System

There are many ways to control your air conditioner, but one smart controller is all you need. Samsung provides several different control options that can control one indoor unit to a group of indoor units with one system.

## Function Icon

-  ON/OFF, OPERATION MODE, FAN SPEED, AIRFLOW, TEMPERATURE SETTING
-  INDIVIDUAL AND GROUP CONTROL (MAXIMUM 16 INDOOR UNITS)
-  ERROR DISPLAY
-  FILTER REPLACEMENT ALARM RESET

## Wireless Remote Controller

MR-BH01

- Simple schedule control
- Wide display
- Soft touch button

MR-AH01

- Compact size
- Simple schedule control
- Soft touch button

## Wired Remote Controller

MWR-WS00 (Premium)

- Weekly schedule setting (Maximum 70 schedules)
- Exception date setting
- Built-in room temperature sensor
- Clear and bright screen with LCD backlight
- Temperature limit setting
- Wireless remote control restriction
- Automatic Stop mode
- Sleep and Silent mode
- Child lock

MWR-TH01

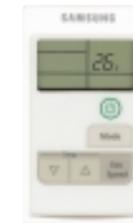

- Simple schedule control
- Wireless remote control restriction

## Simplified wired remote controller

MWR-SH00

- Mode selection protection

## ERV Wired remote controller

MWR-VH01

- Individual and group control (Maximum 16 ERVs)
- On/Off control
- Operation mode (By-Pass, Heat Exchange), fan speed
- Simple schedule control
- Error display
- Synchronous operation with indoor units

## Wireless Signal Receiver (for Duct-type indoor unit)

MRK-A00

- ON/OFF control
- Operation indication
- Error Indication
- Filter replacement sign
- Use with receiver wire, MRW-10A

## 7-day Scheduler

MWR-BS00

- Up to 100 weekly and daily schedule settings
- Schedule setting based on 1-minute time units
- Digital clock display
- Permanent schedule setting storage
- Current time protection from blackout (maximum 3 days)
- Use with wired remote controller, or centralized controller. (MWR-TH01, MCM-A202A)

# Power Distribution Unit

## MCM-B102

- Real-time power distribution for one indoor/outdoor system.
- Power distribution to maximum 48 indoor units.
- Communication error display.
- Total system power consumption display.
- Power consumption display of individual indoor units.
- Data storage even during a power failure.

Room01 (60kWh), Room02 (120kWh), Room03 (210kWh), Room04 (210kWh)

600kWh Power Supply

Room	Actual Usage Rate	Displayed Rate
Room01	10.2%	10.2%
Room02	20%	19.4%
Room03	35.0%	35.3%
Room04	35.0%	35.1%

Room 01 electric power consumption =  $\frac{\text{Demand capacity of Room 01}}{\text{Total demand capacity of indoor units}} \times \text{Total power consumption}$

- Consult with Samsung Electronics for watt-hour meter interface

## Watt-hour meter Interface Module

### MIM-B12

- Exclusive use for DMS power distribution.
- Connection with up to 8 watt-hour meters.
- RS485 interface with watt-hour meters.
- Power consumption display for each watt-hour meter.
- Automatic detection of specified watt-hour meters.

# Accessories

Classification	Product	Model	Image	Application Model		
Integrated Management System	Controller	DMS	MIM-D00		DVM Series, FJM, CAC, ERV	
		S-NET 3	MST-P3P		DVM Series, FJM, CAC, ERV	
		S-NET mini	MST-S3W		DVM Series, FJM, CAC	
	Interface Module	SIM	MIM-B12		DVM Series, FJM	
Centralized Control System	Controller	S-NET II Plus	MSP-S1P		DVM, DVM HR, DVM PLUS II, DVM PLUS II HR, FJM, CAC	
		Centralized Controller	MCM-A202A		DVM Series, FJM, CAC, ERV	
		Function Controller	MCM-A100		DVM Series, FJM, CAC	
		Operation Mode Selection Switch	MCM-C200		DVM Series	
	Interface Module	Centralized Control Interface Module	MIM-B13A		Mini DVM(R410A), DVM PLUS II, DVM PLUS II HR, DVM PLUS III, DVM PLUS III HR, FJM, ERV	
			MIM-B04A		DVM, DVM PLUS, DVM HR, CAC	
Individual Control System	Controller	Wireless Remote Controller	MR-AH01 MR-BH01		Cassette, Ceiling, Duct (Receiver needed), Console (Included)	
		Wired Remote Controller (Premium)	MWR-WS00		Cassette, Wall Mounted, Ceiling, Duct, Console	
		Wired Remote Controller	MWR-TH01		Cassette, Wall Mounted, Ceiling, Duct, Console	
		Simplified Wired Remote Controller	MWR-SH00		Cassette, Wall Mounted, Ceiling, Duct, Console	
		ERV Wired Remote Controller	MWR-VH01		ERV	
		Wireless Signal Receiver Kit	Wireless Signal Receiver	MRK-A00		Duct (For Wireless Remote Controller)
			Receiver Wire	MRW-10A		Duct (For Wireless Remote Controller)
		7-day Scheduler	MWR-BS00		Cassette, Wall Mounted, Ceiling, Duct	
	Building Management System	Lonworks Interface Module	MIM-B07		DVM Series, FJM	
Guest Room Management System	Key-tag Interface Module	MIM-B02		DVM Series, FJM		
	External Contact Interface Module	MIM-B14		Mini DVM(R410A), DVM PLUS II, DVM PLUS II HR, DVM PLUS III, DVM PLUS III HR (Non RAC/Console)		
Power Distribution	Power Distribution Unit	MCM-B102		DVM Series, FJM		

DVM Series : Mini DVM, DVM, DVM PLUS, DVM HR, DVM PLUS II, DVM PLUS II HR, DVM PLUS III, DVM PLUS III HR
