Company Profile

Company Profile

Hira Walraven is a joint venture company between Hira Industries LLC, based in United Arab Emirates and the Walraven group based in the Netherlands.

Since 1980, Hira Industries has been serving the construction industry with products of the highest quality conforming to international standards. Today, Hira Industries has manufacturing plants in United Arab Emirates and India, with sales offices in multiple locations across Middle East, India, Asia, Africa and USA. With more than 900 motivated employees from 20 nationalities, the group aims to constantly innovate and set the standards which would widen the gap between our competition and us.

*** Regional Head Office at National Industries Park – Dubai, UAE**

The Walraven Group originated from the metal work company J.Van Walraven B.V, a family business which was established in 1942 in Mijdrecht (NL). Today Walraven has its own production and sales companies in ten European countries, the United States of America and China. In the Walraven Group over 750 enthusiastic employees are active with the development, production and sales of our innovative products.

Connecting Our Customers

What makes our brand unique ? We connect the needs of our customers to the strengths of our company. With our wide product range and expert advice we can provide complete solutions for every aspect of the projects, no matter how large or complex.

The combination of our product system, know how and services enables us to deliver smart product solutions. This is how we provide added value to our customers through smart solutions. We understand that our products are small parts within potentially huge projects. We know how important it is for even the smallest part to do its job properly and make your work easier and more efficient. Even the tiniest parts can deliver great value if constructed, applied and supplied in smart ways.

And that's what we do everyday.

diamond walraven

Quality

Our organization is ISO 9001:2008 certified. This way we continuously improve operational processes, and thus the quality of the entire organization.

Our products meet the highest quality standards and are approved by many international testing institutes such as

The technical properties of the products, like the maximum safe working load, are established and published by means of a standardized measuring method.

Within the measuring method the maximum load is calculated taking the maximum deflection into consideration.

Management Team

All our employees are highly trained to assist in product selection, technical assistance and project support.

Product Range

The complete range of Diamond Walraven products include

- Pipe Fixing Systems
- Fixing Points and Sliding Devices
- Rapid Rail and Rapid Strut Channel Fixing Systems
- Rooftop Supports + Solar Fixing
- Mechanical and Chemical Anchors and Nylon Plugs
- Fastening Systems
- Pipe Connectors
- Anti Vibration Products
- Fixing Accessories
- Passive Fire Stop Systems
- Seismic Bracing and Accessories

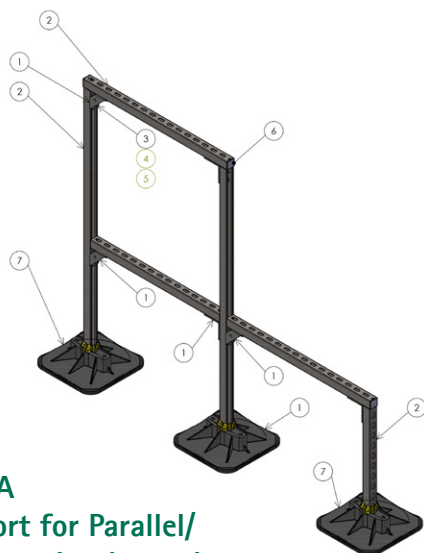

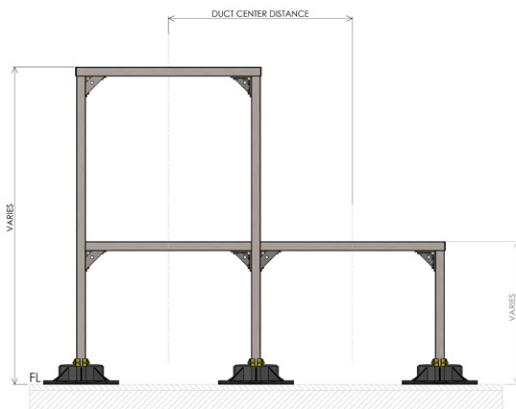

Technical Services

Our range of technical services include, but not limited to

- Select suitable channel profile for specific installations using propriety software to calculate stress, deflection and reaction forces at supports in multi span rails with finite element method.
- Provide complete Bill of Quantities of support assembly system.
- Seismic calculations.
- Computer aided drawings to visualization of designs.
